### AARP Network of Age-Friendly Communities

The Town of Glastonbury has been accepted as a member of the AARP Network of Age-Friendly Communities.

Launched in April 2012, the AARP Network of Age Friendly Communities is an independent affiliate of the World Health Organization's Age Friendly Cities and Communities Program, an international effort launched in 2006 to help cities prepare for the growth of the older adult population.

With the age-friendly program, AARP helps participating communities to become great places for people of all ages by adopting such features as walkable streets, better housing and transportation options, access to key services and opportunities for residents to participate in community activities.

Enrollment in the network provides member communities with the resources to become more age-friendly by tapping into national and global research, planning models and best practices.

#### Movies At the Riverfront Community Center

Please note that we receive many recommendations on what type of movies we should and should not show at the center, and as a result have concluded that no two seniors are alike... Some folks want to see only comedies or romantic films. Others want the latest thrillers with lots of action. Because we offer a variety of films, there will be times when a film might not meet an individual's personal preference. Going forward, we will always show you the rating of the film, highlighting its content so that there will be a clear warning that the film may contain sexual content, violence, rough language etc.. Then the choice is yours! **Movie requests are welcome.** Let us know what you would like to see! ***(Forms available in office).***
