   a) If, in the opinion of the Engineer, the Contractor is not proceeding with the work at a sufficient rate of progress so as to finish in the time specified, or has abandoned said work, or is not complying with the terms and stipulations of the Contract and specifications, the Engineer may serve notice on the Contractor to adopt such methods as will insure the completion of the work in the time specified.

   b) If, within five (5) days after the Engineer has notified the Contractor that his work is not being carried on satisfactorily as before mentioned, the Engineer shall have the right to annul the Contract and manage the work under the direction of the Engineer, or re-let, for the very best interest of the Town as a new contract, the work under said new contract shall be considered the responsibility of the defaulting Contractor.

15. Deductions for Uncorrected Work:

   a) If the Engineer deems it inexpedient to correct work that has been damaged or that was not done in accordance with the Contract, an equitable deduction from the Contract price shall be made therefore.

   b) The Contractor shall promptly replace and re-execute his own work in accordance with the Contract and without expense to the Town.

LAWN MOWING SERVICES

Detailed Specifications

Cemeteries

Mowing shall be done in accordance with the detailed specifications, 1.0-20.0, with the following exceptions:

- Mow and string trim around all fences, monuments, vaults, and grave markers.

- Flags, flowers, and other memorial markers may be moved to facilitate mowing operations but shall be immediately returned to their original location. Flags, flowers and other memorial markers shall only be removed at the direction of the Town. All removed items shall be disposed of properly.

- The Contractor shall report any and all damage to head stones, grave markers, vaults, fences or other improvements to the Town immediately. Any items damaged by the Contractor shall be either repaired or replaced to the satisfaction of the Town.

- The mowing frequency is every three weeks. Again, it should be expected that mowing operations may be discontinued during the drought season, usually late July-August. Special conditions require that each cemetery be mowed 3-5 days prior to Memorial Day, July 4 and Labor Day. These requirements shall be met as part of the regular mowing frequency. The Contractor shall account for inclement weather when developing the mowing schedule.

- With the exception of the Wassuc and Still Hill Cemeteries, all of the cemeteries are inactive. Still Hill and Wassuc may have an occasional burial. Mowing operations shall not be conducted in conflict with any burials that may be scheduled.
