Attachment 1: List of Qualifying Projects Form
Attachment 2: Proposal Response Form
Attachment 3: Non Collusion Statement
Section 1 – General Information

A. Introduction

The Town of Glastonbury will be accepting qualifications/proposals to provide architectural/engineering services to develop a preliminary design, concept and cost estimates for a new BoE Central Office/Alternate Education Program Facility expected to be located at 2155 Main Street (rear), Glastonbury.

B. Background

The Glastonbury Board of Education Central Office and the Alternate Education Program are currently located in leased office space at 628 Hebron Avenue. The Town intends to evaluate design options and cost estimates for demolishing the existing “D” wing of the Academy building located at 2155 Main Street (rear), Glastonbury, CT. While the design and cost estimating is expected to focus on new construction at the site of the current “D” wing it is possible other sites could be evaluated for the proposed new facility. While State of Connecticut Department of Education grant funding will likely be requested for the follow-on design and construction for a project arising from this study, this study is being supported by local funding. If and when the Town decides to go forward with a project to provide the needed space, it is anticipated another RFP structured to meet the requirements of the State of Connecticut in order to qualify for grant funding will be issued to select an architect for that design/construction administration work.

C. Evaluation Criteria

Firms interested in being considered for this project shall meet the following criteria of:

- Licensed to perform architecture services in Connecticut
- Designed a minimum of three projects each of which meets the following minimum characteristics:
  - Public school project (at least one major renovation project)
  - Located in the State of Connecticut
  - Included grant funding from the State Department of Education
  - Project budget of not less than $4 million
  - Received certificate of occupancy within the last 10 years
- Recent experience with work of similar size and scope
- Organizational and team structure
- Past performance data including, but not limited to:
  - adherence to project schedules
  - adherence to project budgets
  - number and cost of change orders
- Approach to the work
- Contract oversight capabilities
• Experience planning, designing, and administering sustainable facilities including specific requirements of the U.S. Green Building Council’s Leadership in Energy and Environmental Design (LEED) program
• Experience planning/designing renovations of former school buildings for administrative and instructional purposes

D. Term of Service

The selected firm or individual will be expected to commence services within 15 days of contract execution. The work and deliverables identified in Sections 2.A and 2. B., below, shall be completed within 4 months of contract execution. The intent is to select a concept and have all the supporting documentation required for a referendum and a Department of Education grant application upon the completion of the work.

The Town reserves the right to cancel this proposal process at any time should any of the following conditions exist:

• Funds are not appropriated to allow continuance of this contract.
• The Town, through changes in its requirements or method of operation, no longer has a need for this service.
• The Town is not satisfied with the level of services provided under the contract or the contractor fails to comply with any of the terms and conditions outlined in the contract.

Section 2 – Scope of Services

A. Scope of Work

The purpose of this project is to:

Establish/verify the administrative, education, and education support space requirements for the BoE Central Office and Alternate Education Program. The project scope is expected to include the demolition of the existing Academy “D” wing located at 2155 Main Street (Rear), Glastonbury, CT and/or evaluation of alternative sites, as applicable, and provide a written evaluation and cost estimates for the various alternatives. The cost estimate shall be prepared by a third party cost estimator acting as a consultant to the architect. The selected consultant will also prepare and compile the educational specifications, cost estimate, and other necessary supporting documentation required by the State Department of Education in order to qualify for grant funding.

Discussion with the State Department of Education suggests the Bureau of School Facilities may require the work identified above to be structured as two projects (a Central Office project and a School project) for their funding management. Therefore, it may be necessary to structure the cost estimates, Educational Specifications, and other documentation required to support the grant funding as two separate projects.
It is anticipated this work will be generally executed as follows:

- Meeting with Town and Education staff to determine requirements and explain alternatives and concepts.
- Identifying and evaluating alternatives, as applicable, and recommending to the Town and Education staff alternatives that satisfy administrative and educational program requirements and comply with all applicable codes.
- Development of schematic drawings and descriptions of the work necessary to communicate the scope and intent of the work to Town and Education staffs, Town Council, BoE, and Town boards and committees, as necessary.
- Development of total project cost estimates and evaluation of the cost for eligibility for state reimbursement. This cost estimate shall be prepared by a third party estimator acting as a consultant to the architect. The fee for this work shall be included in the architect’s fee.
- A proposed project schedule.
- Preparation of Educational Specifications and other documentation required in order to comply with the State of Connecticut Department of Education requirements for grant eligibility.

B. Project Deliverables

- Drawings, specifications, and any associated technical data (calculations, suggested manufacturers’ products, photographs, etc.) necessary to communicate the concepts considered and to support and final recommendations.
- Budget estimate of total project costs including demolition and abatement costs, construction costs, A/E fees, FF&E, contingency, escalation, administrative and bonding costs, and school grant reimbursement. This cost estimate shall be prepared by a third party estimator acting as a consultant to the architect. The fee for this work shall be included in the architect’s fee proposal.
- A proposed schedule for accomplishment.
- Educational Specifications and other required documentation necessary to comply with the State of Connecticut Department of Education requirements for grant eligibility.

The consultant shall be expected to be present for some or all of the meetings which may need to be conducted with user groups, either at the Architect’s office, Town or BoE offices, on site, or elsewhere.
C. Insurance

The bidder shall, at its own expense and cost, obtain and keep in force during the entire duration of the Project or Work the following insurance coverage covering the bidder and all of its agents, employees and sub-contractors and other providers of services and shall name the Town of Glastonbury and Glastonbury Board of Education, its employees and agents as an Additional Insured on a primary and non-contributory basis to the bidders Commercial General Liability and Automobile Liability policies. **These requirements shall be clearly stated in the remarks section on the bidders Certificate of Insurance.** Insurance shall be written with Carriers approved in the State of Connecticut and with a minimum Best’s Rating of A-. In addition, all Carriers are subject to approval by the Town/BoE.

1) Worker’s Compensation Insurance:
   - Statutory Coverage
   - Employer’s Liability
   - $100,000 each accident/$500,000 disease-policy limit/$100,000 disease each employee

2) Commercial General Liability:
   - Limits of Liability for Bodily Injury and Property Damage
     Each Occurrence $1,000,000
     Aggregate $2,000,000  (The Aggregate Limit shall apply separately to each job.)
   - A Waiver of Subrogation shall be provided

3) Automobile Insurance:
   - Including all owned, hired, borrowed and non-owned vehicles
   - Limit of Liability for Bodily Injury and Property Damage:
     Per Accident  $1,000,000

4) Architect’s Errors and Omissions Liability or Architectural Services Professional Liability Policy
   - Provide Architect’s Errors and Omissions Liability or Architectural Services Professional Liability Policy for a minimum Limit of Liability $5,000,000 each occurrence or per claim. The Town of Glastonbury and Glastonbury Board of Education, its employees and agents are Additional Insureds for this specific project.
- The Architect agrees to maintain continuous professional liability coverage for the entire duration of this project, and shall provide for an Extended Reporting Period in which to report claims for three (3) years following the conclusion of the project.

The respondent shall provide a Certificate of Insurance as "evidence" of General Liability, Auto Liability including all owned, hired, borrowed and non-owned vehicles, and statutory Worker's Compensation and Employer's Liability coverages.

The respondent shall direct its Insurer to provide a Certificate of Insurance to the Town of Glastonbury before any work is performed. The Certificate shall evidence all required coverage including the Additional Insured and Waiver of Subrogation.

The awarded respondent will be responsible to provide written notice to the Owner 30 days prior to cancellation of any insurance policy.

To the fullest extent permitted by law, the Respondent shall indemnify and hold harmless the Town/Board of Education and its consultants, agents, and employees from and against all claims, damages, losses and expenses, direct, indirect or consequential (including but not limited to fees and charges of engineers, attorneys and other professionals and court and arbitration costs) arising out of or resulting from the performance of the Consultant’s work, provided that such claim, damage, loss or expense is caused in whole or in part by any negligent act or omission by the Consultant, any person or organization directly or indirectly employed or engaged by the Consultant to perform or furnish either of the services, or anyone for whose acts the Consultant may be liable, regardless of whether or not it is cause in part by a party indemnified hereunder.

The above insurance requirements are the Town’s general requirements. Insurance requirements with the awarded respondent are subject to final negotiations.
